Time Proven Nutrients

The herbal nutrients included in **Quantum-Rx Brain Complex** have been used for centuries to help improve mental alertness and vigor in children as well as adults, including the elderly.

These herbs contain special phytonutrients for alertness and to help improve both long-term and short-term memory. They help transport messages within the brain and are associated with healthy mood, memory, mental acuity, and responsiveness, without the need for chemical stimulants.*

Neurotransmitter Support

Quantum-Rx Brain Complex has been designed to support the body's natural brain neurotransmitters and to enhance peak mental alertness and mental energy.* Neurotransmitters are also involved in many other functions of the body, including energy production and stress management.*

No Stimulants

No caffeine or other stimulants are used in **Quantum-Rx Brain Complex**. It may be taken daily or just during times when peak mental alertness and mental energy are desired.

Quantum Brain Resonance

Some brain support products feature large amounts of a single ingredient, such as phosphatidylcholine or ginkgo. However, the chemistry of the brain is designed such that the matrix of each brain cell really seeks small amounts of hundreds of different phytonutrients in order to function at its ideal cellular resonance. Therefore, we have engineered **Quantum-Rx Brain Complex** to contain multiple, quantum-state quality¹ synergists directed to the targeted tissue, the brain, as well as exquisite co-factors and transporters to assure maximum uptake and nutrient utilization for the most rapid quantum shift in the cellular resonance of the brain. Welcome to the Quantum Nutrition Effect² for the brain.

¹Quantum-State Quality

Quantum-Rx Brain Complex is the result of our relentless search to find the the best grown phytonutrients, free of any toxic chemical tagalongs through the whole process: growing, harvesting, encapsulation, bottling and delivery to you.

²The Quantum Nutrition Effect

When quantum-state quality nutrients (exquisitely well-grown, free of toxic tagalongs) are combined together, their effect is far greater than the sum of their individual benefits by a factor of 2 to 100-fold or more: **The Quantum Nutrition Effect**.
